

THPY系列液压压片机

THPY Series Hydraulic Tablet Press

► 概述 (Application)

该类型压片机是我公司根据市场需要研制的新型机型，该产品适用于压制多工序制品，具有一机多模的功能和特点，压力大、精度高、压制稳定、性能可靠、省时省力、生产效率高。该产品是二氯苯、硅粉、碳粉、陶瓷粉、磨削设备/材料、卫生用品、樟脑球、磁性材料、冶金、电子手写板等各种粉状物料压缩成型的理想设备。

This type of compressor machine is the new type developed by our company based on the market needs. The products are suitable to compress multi-steps goods with functions and characters of several molds in one machine, great pressure, high accuracy, stable compression, reliable performance, time/labor saving, and high producing efficiency. The products are ideal machines to compress and form various powder materials such as dichlorobenzene, silicon powder, carbon powder, ceramics powder, grinding device/material, hygienic products, camphor ball, magnetic materials, metallurgy, and electronic tablet and so on.

► 技术参数 (Technical Parameters)

| 参数ITEM | 型号TYPE | 200 | 100 | 45 | 25 |
|-------------------------|---------|--|---------------|---------------|---------------|
| 工作压力 Max. Pressure | T | 200 | 100 | 45 | 25 |
| 上冲最大行程 Upper Stroke | mm | 220 | 200 | 150 | 150 |
| 填料高度 Filling Depth | mm | 160 | 150 | 150 | 150 |
| 压片描述 Tablet Description | - | 一模多片(根据片尺寸设计) One mould with multi-tips (designed as per tablet size) | | | |
| 产量 Max.Output | pcs/min | 1-3 | 4-6 | 4-6 | 5 |
| 重量 Weight | kg | 5200 | 2800 | 2000 | 850 |
| 功率 Power | kw | 15 | 11 | 7.5 | 3 |
| 外形尺寸 Overall Size | mm | 2500*1200*2800 | 2100*950*2300 | 750*1300*2200 | 1500*750*1600 |
