

DSH系列双螺锥形混合机

DSH Series Double Screw Cone Mixer

► 介绍 (Introduction)

该机是一种新型高效、高精度的混合设备，广泛适用制药、化工、饲料等行业的多种粉体混合。

This is a new high-efficient and high-precision mixing equipment. It's widely used in mixing the materials in pharmaceutical, chemical and feedstuff, etc.

► 特点 (Features)

该机自转、公转有一套电机及摆线针轮减速机组成，搅拌范围大，混合速度快。对比重悬殊、混配比悬殊的物料混和更为合适。

Its rotation and revolution are controlled by a set of motors and a swaying wheel decelerating device.The machine stirs on a large scale and mixes quickly. It's better to be applied in mixing materials that are not even grades with great disparity in specific gravity.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	DSH-0.3	DSH-0.5	DSH-1	DSH-2	DSH-3	DSH-4	DSH-6	DSH-10	DSH-15	DSH-20	DSH-30
生产能力 Production Capacity	m³	0.18	0.3	0.6	1.2	1.8	2.4	3.6	6	9	12	18
	kg	200	300	650	1200	1800	2500	3600	6000	9000	12000	18000
公转 Revolution	-	2								1.2		
自传 Rotation	-	143			57							
功率 Power	kw	2.2	3	4	5.5	7.5	11	15	18.5	22	37	45
机器净重 Net Weight	kg	550	600	1200	1500	2300	2520	3160	3950	4500	5500	6800
最大直径 DIA	mm	950	1130	1500	1830	2040	2250	2548	3018	3450	3770	4100
