

SF系列通用粉碎机

SF Series Universal Crusher

► 用途 (Application)

本机适用于医药、化工、食品及粮食等行业，用途极为广泛。

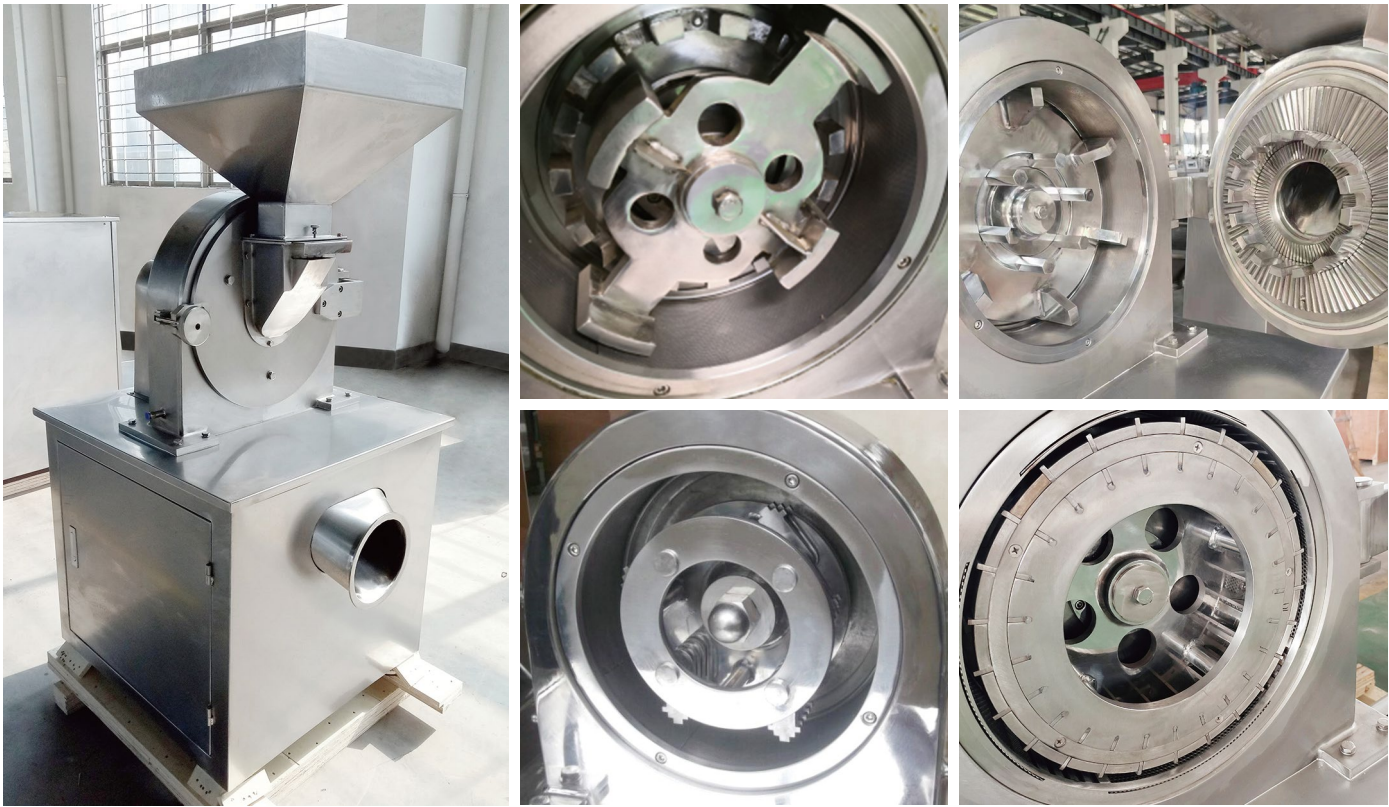

This machine is suitable for medicine, chemical industry, food and grain industries, and has a wide range of uses.

► 特点 (Features)

本机利用活动齿盘和固定齿盘间的高速相对运动,使被粉碎物经齿冲击、磨擦及物料彼此间冲击等综合作用获得粉碎。本机结构简单坚固、运转平稳、粉碎效果好、无积粉现象，被粉碎物可直接由主机磨腔中排出，粒度大小通过更换不同孔径筛网获得。

This machine uses the relative motion between movable and fixed fluted discs, the raw materials to be crushed undertakes the comprehensive actions such as impacted by teeth, friction, impacted between raw materials are crushed, ts features are simple and solid in structure, stable in operation, high crushed efficiency. The crushed raw material can be discharged through the grinding chamber. Moreover, different size of raw material to be crushed can be got through exchanging screen with different mesh.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	SF-20	SF-30	SF-40	SF-50
主轴转速 Spindle Rotating Speed	rpm	4500	3800	3400	2800
电机功率 Motor Power	kw	4	5.5	11	15
生产能力 Production Capacity	kg/h	60-150	100-300	160-800	400-1200
进料粒度 Feeding Size	mm	6	10	12	15
出料细度 Output Size	mesh	60-120	60-120	60-120	60-120
外形尺寸 Overall Size	mm	550*600*1250	600*700*1450	800*900*1500	1000*900*1680
机器净重 Net Weight	kg	186	300	510	650
